

Clinical podiatry & beauty therapy

— Who We Are/What We Do

At MediPedi we believe in making people feel good from the ground up. We have brought together the best of Clinical Podiatry and Beauty Therapy to bring this ideal to life.

The health of our clients feet is our first priority. We utilise the latest Podiatric Technology and Innovation to ensure we achieve the best clinical outcomes. Our team of Podiatrists are all Board Certified and committed to providing the highest quality of care. They work together to collaborate on complex issues and maintain ongoing professional development to ensure they are at the forefront of Podiatric medicine.

— The Medical Pedicure (Our Signature Treatment)

The Medical Pedicure is a comprehensive Podiatry treatment to assess and treat the health of your feet. Your Podiatrist will safely and effectively prepare your skin and nails and provide you with ongoing foot care advice. You will then be indulged with foot pampering and nail paint from one of our qualified Beauty Therapists.

Clinical podiatry

— Biomechanical Podiatry*

Heel/foot pain?

Aching legs at the end of the day?

Suffering from exercise induced foot/leg pain?

The Process is Simple. At MediPedi we know feet. Our team of Podiatrists can work with you to achieve pain free feet, restore your quality of life and get you active again! The process is simple. Our Podiatrists will assess your situation, diagnose your problem and recommend an appropriate treatment plan that will start you on the path towards pain free feet.

Treatments may include:

Taping/Strapping

Exercises

Manual Therapy/Massage

Dry Needling

Orthotics

* Available at Norwood & Glenelg

— Lunula Laser* (Fungal Nails)

The Lunula Laser is a painless, simple and effective treatment for the unsightly effects of Fungal Nail Infections. Fungal nails are surprisingly common and though there are a number of over the counter treatments available, we recommend Lunula for its ease of use and high success rate. One of our Podiatrists will assess your nails and provide you with a comprehensive treatment plan.

— Swift** (Warts)

Warts are caused by a virus that infects the skin and can be stubborn to treat as they cleverly hide from our bodies immune system. Swift is a new and innovative treatment that utilises microwave energy to stimulate an immune response from your body. Most people require as few as three treatments to effectively treat the wart/s. Swift is clean, quick and safe for children.

At MediPedi we see women, men and children with a variety of common foot issues:

- Foot and Lower Leg Pain
- Foot and Lower Leg Injuries
- Dry Skin, Corns, Calluses
- Ingrown Toenails
- Bunions
- Fungal Nail Infections
- Warts
- Diabetic Foot Care

You don't need a referral to see a Podiatrist. We do accept all private health funds and have HICAPS here on site for on the spot claiming.

* Available at Unley, Norwood & Glenelg

** Available at Norwood & Glenelg
